

# PdfCube Demo Presentation

Press Space to Advance the Slide

# Keyboard Controls

- The H, J, K, and L keys zoom to the slides corners
- The Z key zooms to the center
- PageUp and PageDown advance the slides forward and backwards using the default transition
- The C and A keys advance the slides forward and back using a cube transition
- Press Esc to exit the slideshow

# Creating a Slideshow in Abiword

1. Go to File->Page Setup and chose Letter for Paper Size and Landscape for Orientation.
2. Create Slides
3. Go to File->Print and select Cups-PDF for your printer. Click Print and choose a location to save your file.
4. Open the file in PdfCube

The End. Have fun!
